# TABLE OF CONTENTS

## to Volume 81, September–December, 1975

ALEXANDER, MARY L., Genetic damage at specific gene loci in Drosophila with betatron X-rays ... 493–500

ANDERSON, THOMAS F., JACK SCHULTZ ... 1–7

AVISE, JOHN C. and FRANCISCO J. AYALA, Genetic change and rates of cladogenesis ... 757–773

BROWN, A. H. D., D. R. MARSHALL and B. S. WEIR, Population differentiation under the charge state model ... 739–748

BRUMBAUGH, J. A. and K. W. LEE, The gene action and function of two dopa oxidase positive melanocyte mutants of the fowl ... 333–347

CHILTON, MARY-DELL, Ribosomal DNA in a nuclear satellite of tomato ... 469–483

CULLIS, C. A. and D. ROY DAVIES, Ribosomal DNA amounts in *Pisum sativum* ... 485–492

DEWEES, ANDREW A., Genetic modification of recombination rate in *Tribolium castaneum* ... 537–552

DOBZHANSKY, THEODOSIUS, OLGA PAVLOVSKY and MICHAEL ANDREGG, Distribution among the chromosomes of *Drosophila pseudoobscura* of the genes governing the response to light ... 357–367

ENOMOTO, MASATOSHI and BRUCE A. D. STOCKER, Integration, at *hag* or elsewhere, of *H2* (phase-2 flagellin) genes transduced from Salmonella to *Escherichia coli* ... 595–614

FALKE, ERNEST V. and THEODORE R. F. WRIGHT, Cold-sensitive mutants of *Drosophila melanogaster* defective in ribosome assembly ... 655–682

FELSENSTEIN, JOSEPH, Genetic drift in clines which are maintained by migration and natural selection ... 191–207

FOSTER, GEOFFREY G., Negative complementation at the Notch locus of *Drosophila melanogaster* ... 99–120

FREELING, MICHAEL, Further studies on the balance between $Adh_1$ and $Adh_2$ in maize: gene competitive programs ... 641–654

FUKUNAGA, AKIHIRO, ATSUMI TANAKA and KUGAO OISHI, Maleless, a recessive autosomal mutant of *Drosophila melanogaster* that specifically kills male zygotes ... 135–141

GANS, MADELEINE, CLAUDIE AUDIT and MICHELE MASSON, Isolation and characterization of sex-linked female-sterile mutants in *Drosophila melanogaster* ... 683–704

GHIDONI, A., Effect of trisomy 6 on recombination in chromosome 9 of maize ... 253–262

GILLESPIE, JOHN H., Natural selection for within-generation variance in offspring number. II. Discrete haploid models ... 403–413

HALL, BARRY G. and DANIEL L. HARTL, Regulation of newly evolved enzymes. II. The *ebg* repressor ... 427–435

HARTL, DANIEL L., EVERETT R. DEMPSTER and SPENCER W. BROWN, Adaptive significance of vegetative incompatibility in *Neurospora crassa* ... 553–569

HILLIKER, A. J. and D. G. HOLM, Genetic analysis of the proximal region of chromosome *2* of *Drosophila melanogaster*. I. Detachment products of compound autosomes ... 705–721

HO, K. M. and K. J. KASHA, Genetic control of chromosome elimination during haploid formation in barley ... 263–275

HOLM, DAVID G. and ARTHUR CHOVNICK, Compound autosomes in *Drosophila melanogaster*: The meiotic behavior of compound thirds ... 293–311

JAMET-VIERNY, C. and C. ANAGNOSTOPOULOS, Induction and transmission of a merodiploid condition near the terminal area of the chromosome of *Bacillus subtilis* ... 437–453

JAMISON, M. G., J. M. WHITE, W. E. VINSON and K. HINKELMANN, Diallel analysis of growth traits in mice ... 369–376

KACZANOWSKI, ANDRZEJ, A single-gene-dependent abnormality of adoral membranelles in *Tetrahymena pyriformis*, species 1 ... 631–639

KASHMIRI, S. V. S. and ROLLIN D. HOTCHKISS, A study of Pneumococcal merodiploids at the molecular level ... 9–19

KASHMIRI, S. V. S. and ROLLIN D. HOTCHKISS, Evidence of tandem duplication of genes in a merodiploid region of Pneumococcal mutants resistant to sulfonamide ... 21–31

KATZ, A. J. and S. S. Y. YOUNG, Selection for high adult body weight in Drosophila populations with different structures ... 163–175

KERR, WARWICK ESTEVAM, YUKIO AKAHIRA and CONCEIÇÃO A. CAMARGO, Sex determination in bees. IV. Genetic control of juvenile hormone production in *Melipona quadrifasciata* (Apidae) ..... 749–756

KREUZER, KENNETH, CHARLES PRATT and ANNAMARIA TORRIANI, Genetic analysis of regulatory mutants of alkaline phosphatase of *E. coli* ..... 459–468

KRIDER, HALLIE M. and BRYAN I. LEVINE, Studies on the mutation abnormal oocyte and its interaction with the ribosomal DNA of *Drosophila melanogaster* ..... 501–513

LAWRENCE, CHRISTOPHER W., FRED SHERMAN, MARY JACKSON and RICHARD A. GILMORE, Mapping and gene conversion studies with the structural gene for iso-1-cytochrome *c* in yeast ..... 615–629

MCKECHNIE, STEPHEN W., PAUL R. EHRLICH and RAYMOND R. WHITE, Population genetics of Euphydryas butterflies. I. Genetic variation and the neutrality hypothesis ..... 571–594

MOHAN, JAG, The synthesis of 5S RNA and its relationship to 18S and 28S ribosomal RNA in the bobbed mutants of *Drosophila melanogaster* ..... 723–738

NAMKOONG, G. and D. F. MATZINGER, Selection for annual growth curves in *Nicotiana tabacum* L. ..... 377–386

PLEWA, MICHAEL J. and DAVID F. WEBER, Monosomic analysis of fatty acid composition in embryo lipids of *Zea mays* L. ..... 277–286

PORTIN, PETTER, Allelic negative complementation at the Abruptex locus of *Drosophila melanogaster* ..... 121–133

PROCUNIER, JAMES D. and KENNETH D. TARTOF, Genetic analysis of the 5S RNA genes in *Drosophila melanogaster* ..... 515–523

RAVIN, ARNOLD W. and TAPAN CHAKRABARTI, Genetic hybridization at the unlinked *thy* and *str* loci of Streptococcus ..... 223–241

REDDY, A. R. and G. M. REDDY, Genetic control of quercetin formation in the aleurone tissue of maize ..... 287–292

ROBERTSON, ALAN, Gene frequency distributions as a test of selective neutrality ..... 775–785

SCHIFFMAN, MICHAEL B., MARIA L. SANTORINEOU, SUSAN E. LEWIS, HOWARD A. TURCHIN and SALOME GLUECKSOHN-WAELSCH, Lipid deficiencies, leukocytosis, brittle skin—a lethal syndrome caused by a recessive mutation, edematous (*oed*), in the mouse ..... 525–536

SHELLENBARGER, DAVID L. and J. DAWSON MOHLER, Temperature-sensitive mutations of the Notch locus in *Drosophila melanogaster* ..... 143–162

SHERMAN, FRED, MARY JACKSON, SUSAN W. LIEBMAN, ANN MARIE SCHWEINGRUBER and JOHN W. STEWART, A deletion map of *cyc1* mutants and its correspondence to mutationally altered iso-1-cytochromes *c* of yeast ..... 51–73

SINGH, ARJUN and FRED SHERMAN, Genetic and physiological characterization of *met15* mutants of *Saccharomyces cerevisiae*: a selective system for forward and reverse mutations ..... 75–97

SLATKIN, MONTGOMERY, Gene flow and selection in a two-locus system ..... 787–802

SLATKIN, MONTGOMERY and TAKEO MARUYAMA, Genetic drift in a cline ..... 209–222

SLATKO, BARTON E. and YUICHIRO HIRAIZUMI, Elements causing male crossing over in *Drosophila melanogaster* ..... 313–324

STETTEN, DEWITT, JR., Freedom of enquiry ..... 415–425

THOMPSON, JAMES N., JR., Studies on the nature and function of polygenic loci in Drosophila. III. Veinlet modifiers having region-specific effects upon the vein pattern ..... 387–402

TOBY, A. L. and C. L. KEMP, Mutant enrichment in the colonial alga, *Eudorina elegans* 243–251

VALENTIN, JACK and GUNNAR STAHL, Interpretation of data obtained with recombination-defective meiotic mutants ..... 325–331

WHITE, RAYMOND L. and MAURICE S. FOX, Genetic heterozygosity in unreplicated bacteriophage λ recombinants ..... 33–50

WILLS, CHRISTOPHER, Marginal overdominance in Drosophila ..... 177–189

WOLFF, SHELDON, JUDY BODYCOTE, G. H. THOMAS and JAMES E. CLEAVER, Sister chromatid exchange in xeroderma pigmentosum cells that are defective in DNA excision repair or post-replication repair ..... 349–355
